

HYDRO⁺

'it's a positive'

Britain's largest
manufacturer of
in-line filters

World-class filters to suit a wide
variety of applications

We are proud to introduce our HYDRO+ in-line filters. Manufactured in the UK and available with the Aqua Cure next day service backing, you can be sure of getting the right filters for all your cooler requirements... at the right price.

- Europe's best selling range of in-line filters.
- World-leading 1m KX carbon block (meets EPDWA requirements).
- Optimum spin welding technology.
- Genuine John Guest push fits.
- Options available for own spec cartridge and own label.
- Available next day from stock.
- WRAS approved.
- Competitive pricing. Bulk contract rates can be negotiated.
- Multiple variants: carbon block, GAC with and without scale inhibitor.
- 10" and 6" variants.
